High Resolution Terrain Database Change Document

SUBJECT: Changes between v6 and v7 of the High Resolution Terrain Database

FOR HIGH RES TERRAIN DATABASE V7 (CPCI CPN 096-0039-007/096-0040-007, Top Level CPN 810-0406-007), SFC HIGH RES TERRAIN DATABASE V7 (CPCI CPN 096-0040-107, Top Level CPN 810-0406-107), AND HIGH RES TERRAIN DATABASE V7 FOR MFD-2810 (CPCI CPN 096-0F97-007, Top Level CPN 810-0406-207)

This information applies to all Rockwell Collins High Resolution Terrain database variants used by the CCM-6210 (Database 096-0039-0XX/096-0040-0XX), AFD-37XX (Database 810-0406-1XX), and MFD-2810 (Database 810-0406-2XX).

This document will be updated once the above IMPORTANT items are ready for customers.

Note: For the CCM-6210, this database is not used for TAWS alerts.

Change summary from High Resolution Terrain Database v6 to v7:

Typical source data updates in Alaska, Guam, parts of the continental US, Norway, Svalbard, and at several airports worldwide.
