

Bombardier Challenger 604 Pro Line Fusion® Avionics System Maintenance CBT

RCPN 523-0825045

Approximate Course Duration: 8 Hours

This course provides line maintenance personnel with training to operate and perform flight line maintenance for the CL-604 Proline Fusion system.

Upon completion of this course, the student will be able to:

1. Provide an overall understanding of the CL-604 Proline Fusion Avionics principles and operation.
2. Identify system components and the functional/operational characteristics of each line replaceable unit (LRU).
3. Identify aircraft system interface/system architecture.
4. Perform fault isolation to a faulty LRU using built-in test diagnostics and maintenance manuals.

Price per Student: \$800.00*

***This price entitles the student to ninety (90) days of access to the training materials.**
