

Multiscan™ Weather Radar (WXR-2100) - Flight Line Maintenance

RCPN 523-0810513

Type of Course: Flight Line Maintenance (Level I)

Approximate Course Duration: 2 Hours

This course provides line maintenance personnel with training to operate and perform flight line maintenance for the WXR-2100 MultiScan™ Weather Radar.

Upon completion of this course, the student will be able to:

1. Provide an overall understanding of WXR-2100 MultiScan™ Weather Radar principles and operation.
2. Identify system components and the functional/operational characteristics of each Line Replaceable Unit (LRU).
3. Identify typical WXR-2100 MultiScan™ Weather Radar system interface/system architecture.
4. Identify troubleshooting techniques to isolation a faulty LRU.

Price per Student: \$200.00*

***This price entitles the student to ninety (90) days of access to the training materials.**
