

Pro Line 4 - CRJ200 Flight Line Maintenance

RCPN 523-0817524

Type of Course: Flight Line Maintenance (Level I)

Approximate Course Duration: 6 Hours 30 Minutes

This course provides line maintenance personnel with training to diagnose faults and perform flight line maintenance on the Pro Line 4 system installed in the CRJ200.

Upon completion of this course, the student will be able to:

1. Provide an overall understanding of Pro Line 4 Avionics principles and operation.
2. Identify system components and the functional and operational characteristics of each Line

Replaceable Unit (LRU).

3. Identify typical aircraft system interface and system architecture.
4. Navigate the diagnostics information viewed on the on-board displays.
5. Perform fault isolation to a faulty LRU using built-in test diagnostics.
6. Utilize the flight guidance computer diagnostics to troubleshoot the autopilot system.

Price per Student: \$600.00*

***This price entitles the student to ninety (90) days of access to the training materials.**
