Paul Ivan Martinez Yin
Quality Manager Avionics Mexicali Service Center
Ensambladores Electronicos de Mexico (Rockwell Collins)

Authorization of FAA-certificated Repair Station located outside the United States

Dear Mr. Martinez,

This letter authorizes Ensambladores Electronicos de Mexico (Rockwell Collins), Certification No. 919-03 to perform maintenance and modifications on aeronautical products, excluding aircraft, under TCCA regulatory control pursuant to Section B, Paragraph 4.0, of the FAA/TCCA Maintenance Implementation Procedures (MIP).

This authorization is limited to accessories, instruments and radios. The work performed must be within the ratings and limitations contained in your 14 CFR Part 145 certificate, operations specifications and current capability list dated 04/08/2023. Any changes applied to your certificate, operations specifications, or capability list will invalidate this authorization and a new authorization request will be required by TCCA.

This TCCA authorization shall remain in effect until your FAA Repair Station Certificate expires 30/09/2024, or if the certificate has been surrendered, suspended or revoked. To renew this authorization, TCCA requires Ensambladores Electronicos de Mexico (Rockwell Collins) to provide their renewed certificate, and demonstrate compliance with the MIP Section B, Paragraph 4.1, as part of their new authorization request.

Best Regards,

Craig Dennis
