The following customer contract requirements apply to any Purchase Order referencing the above U.S. Government prime contract number and are hereby incorporated into the Purchase Order by full text or by reference with the same force and effect as if they were given in full text. The terms and conditions of the versions of the “Flowdown of U.S. Government Contract Clauses Under U.S. Government Contracts” and “Flowdown Updates” documents in effect on the date of the particular Order shall also apply. These documents are made available at the RTX Supplier Site. The full text of FAR/DFARS clauses may be accessed at <https://www.acquisition.gov/>.

In all provisions and clauses listed herein, terms shall be revised to suitably identify the party to establish Supplier’s obligations to Buyer and to the Government, and to enable Buyer to meet its obligations under the prime contract. CLAUSES INCORPORATED IN FULL TEXT:**FAR AND DFAR CLAUSES INCORPORATED IN FULL TEXT:****52.216-18 – ORDERING (OCT 1995)**

- (a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule at contract award.
- (b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.
- (c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the Schedule.

52.216-22 - INDEFINITE QUANTITY (OCT 1995)

- (a) This is an indefinite-quantity contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.
- (b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the "maximum". The Government shall order at least the quantity of supplies or services designated in the Schedule as the "minimum".
- (c) Except for any limitations on quantities in the Order Limitations clause or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.
- (d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after delivery/task order expiration.

52.217-7 - OPTION FOR INCREASED QUANTITY--SEPARATELY PRICED LINE ITEM (MAR 1989)

Data shall be submitted in accordance with Federal Standard No. 313, whether or not the apparently successful offeror is the actual manufacturer of these items. Failure to submit the Material Safety Data Sheet prior to award may result in the apparently successful offeror being considered non-responsible and ineligible for award.

(e) If, after award, there is a change in the composition of the item(s) or a revision to Federal Standard No. 313, which renders incomplete or inaccurate the data submitted under paragraph (d) of this clause, the Contractor shall promptly notify the Contracting Officer and resubmit the data.

MIDS JTRS THIRD PARTY TRANSACTIONS

(a) Definitions. For the purposes of this clause:

"Foreground Information" is defined as any information generated under the Program.

"Information" is defined as any information, knowledge, or data, regardless of form or characteristics including: that of a scientific or technical nature, threat, experimental and test data, designs, semiconductor mask works and topography, improvements, photographs, reports, manuals, specifications, processes, techniques, inventions, technical writings, computer software, sound recordings, pictorial reproductions, drawings and other graphical representations; whether on magnetic tape, in computer memory or in whatever form presented, and whether or not subject to copyright or other legal protection.

"MIDS JTRS Equipment" is defined as program equipment, including hardware and software that is produced or supported through contracts managed by the PMA/PMW 101 MIDS Program Office. MIDS JTRS Equipment may be an end item, a system, or a component. MIDS JTRS Equipment includes all MIDS JTRS Terminal configurations. MIDS JTRS Equipment excludes special tooling and test equipment.

“Third Party” is defined as any entity that desires to obtain MIDS JTRS Equipment and Foreground Information outside of this contract, i.e, not through an order placed under this contract.

“Procuring Contracting Officer” is defined in Section G, Clause G-5 “Designation of Procurement Contracting Officer and Appointment of Ordering Officer(s)” of this contract.

(b) Restriction. The contractor, and all of its subcontractors, are prohibited from selling, entering into a contract to sell, transferring title of, or disclosing or transferring possession of, any MIDS JTRS Equipment or Foreground Information, exclusive of any MIDS JTRS Equipment or Foreground Information that has been approved for public release, to any Third Party without the express written approval by the Procuring Contracting Officer (PCO).

(c) Procedures

(1) If at any time the contractor desires to engage in a transaction restricted by paragraph (b) above, the contractor must submit a formal written request to that effect to the PCO prior to the earlier of (a) forwarding an offer to sell, entering into a contract to sell, or transferring MIDS JTRS Equipment or Foreground Information to a Third Party, or, (b) submittal of a request to the United States Department of State for an export license, if necessary, for such a proposed transaction. The request shall include at a minimum the following information:

- (i) A description of the defense equipment or information to be transferred, including quantity, number of units, unit price, and total value of proposed sale,
- (ii) The identity of the Ministry of Defense of the new recipient (if applicable).
- (iii) The anticipated purpose, end use, and end user of the defense equipment or information.

If the contractor deems its request to be proprietary, the following paragraph shall be included in its request:

This request for sale or transfer of MIDS JTRS Equipment or Foreground Information includes data that shall not be disclosed outside of the United States Government and shall not be duplicated, used, or disclosed -- in whole or in part -- for any purpose other than to evaluate this request. This restriction does not limit the rights of the United States Government to use information contained in this data if it is obtained from another source without restriction.

(2) Upon receipt of a request submitted pursuant to (c)(1), the PCO will forward the request to the U.S. Government representative for consideration and action. The PCO will notify the contractor when the U.S. Government representative decides to approve or disapprove the requested transaction. The contractor may enter into the transaction as specifically requested pursuant to paragraph (c)(1) only upon receipt of PCO notification that the requested transaction has been approved.

(d) For all transactions involving Third Parties, the contractor shall take appropriate measures to ensure that the Third Party does not re-transfer or use the MIDS JTRS Equipment or Foreground Information provided to that Third Party in any manner inconsistent with the purposes approved by the U.S. Government.

(e) The Contracting Officer's written notification of the approval of a transaction restricted by paragraph (b) involving a particular Third Party shall not constitute an approval by the U.S. Government of any desired future transaction restricted by paragraph (b) with either that Third Party or another Third Party.

(f) The contractor acknowledges and agrees that this clause is a material requirement of the contract, and that its failure to follow any term of this clause entitles the Government to terminate the contract for default.
