

## Register for an Upcoming REACH Webinar

Collins Aerospace, along with our partner Assent Compliance, will host three **Registration, Evaluation, Authorization, and Restriction of Chemical (REACH)** webinars for suppliers in October. These webinars will provide additional information on the regulation requirements as well as instruction on how to complete your online REACH declaration form for parts you provide to Collins Aerospace. We ask that you try to attend one of these webinars that best applies to your supplier type noted below. Once you register, you will receive an email reminding you of the session date and time you selected.

### Webinar schedule and registration links

| Webinar/Supplier Type       | Date/Time (ET)      | Webinar Registration Link         |
|-----------------------------|---------------------|-----------------------------------|
| Build-to-Print Suppliers    | October 19, 11 a.m. | <a href="#">Registration link</a> |
| Supplier Designed Equipment | October 20, 11 a.m. | <a href="#">Registration link</a> |
| Distributors                | October 21, 11 a.m. | <a href="#">Registration link</a> |

### REACH substance requirements

The regulation requires Collins Aerospace to notify its customers if an article contains one or more REACH Substance of Very High Concern (SVHC). We must also ensure that our products comply with the substance restriction requirements contained in REACH. To compile that information, we must collect data from our suppliers on the parts and/or products they provide to Collins.

### Questions

If you have any questions regarding REACH regulations or these webinars, please contact [David Hicks](#), Sr Manager, Global Chemical Regulation Compliance Team.
