The term is limited to data that is archived as a normal part of contractor performance.

(b) The Contracting Officer or designee shall, through closeout, have access to and the right to examine any of the data produced or specifically used in the performance of this contract. The purpose of this access provision is to permit sampling of contractor data to verify requirements compliance and continuous improvement without unduly increasing the number of data deliverables to this contract.

(c) Seller shall make available at all reasonable times for Government inspection the most current data produced or used in the performance of this contract for examination

(b) The Government shall have the right to audit Buyer, and cost-reimbursement contracts with Seller or Seller’s subcontractors (with values exceeding \$1 million) to determine compliance with the requirements of this contract. One purpose of these audits is to afford the Government insight into and understanding of Buyer, Seller, and selected subcontractor processes and procedures to determine whether the processes or procedures (1) adversely affect safety; (2) are not within contract performance standards; or (3) adversely affect future launch schedules.

(c) The Government may schedule fact-finding meetings with Buyer, Seller, and Seller’s subcontractors as necessary to discuss issues requiring Government insight. Scheduling and format of these meetings shall indicate whether exchange of information will be required, and the number and expertise of Buyer/Seller/subcontractor personnel who shall attend the meetings. When requested by the Contracting Officer or designee, Buyer/Seller and subcontractors shall provide necessary support to the Government when it audits the Buyer/Seller or subcontractor and for the Government-Buyer/Seller/subcontractor meetings. PROVISIONS APPLICABLE TO NASA CENTERS

If this contract calls for work on a specific NASA facility or facilities clauses applicable to that facility or facilities will be listed in an attachment to this contract.

PRICING OF COMMON ITEMS TO INTERNATIONAL PARTNERS

This clause applies only when Buyer provides implementing instructions.

(1) The Government has entered into agreements with International Partners (IP) which contemplates that certain space station "common items," previously intended to be procured by NASA, will now be acquired directly by the contractors of these organizations from the United States development contractor. These agreements provide, among other things, that NASA will take the necessary contractual steps to enable that common items can be procured by International Partner contractors for Space Station use, and to ensure that the recurring cost to such contractors consistent with the cost basis paid by NASA. The common items subject to this clause are found in Appendix J-11.

(2) In order to carry out the intent of the above, the contractor agrees as follows:

(A) If a Product Group is requested by an IP contractor to submit a proposal for any of the common items identified, the Product Group agrees to estimate such items to such contractor consistent with the recurring costs estimated for such items in the NASA Space Station contract (NAS15-10000); provided, however, that if there are differences in the circumstances under which the items are being priced to the contractor (e.g., greater or lesser quantities, configuration changes, alternative business relationships, variances in schedule requirements, break in production, actual price experience, etc.), the Product Group's estimate of the items may vary to the extent of such different circumstances. For the purposes of establishing a pricing baseline, Boeing, the Product Groups, and the Government anticipate reaching an agreement on cost estimates for the common items listed in Attachment J-11 no later than 90 days after definitization of the prime contract. Appendix J-11 shall be modified to include the agreed-upon cost estimates.

(B) Each proposal provided to an International Partner contractor for common items shall include a reference to the base target cost identified in Appendix J-11 as well as an explanation of any differences from the base target cost.

(C) Boeing and the Product Groups agree to negotiate in good faith with any International Partner contractors desiring to buy common items as identified in Attachment J-11, and to do so in a manner consistent with the terms of this clause.

(3) Boeing agrees to insert the substance of this clause in all subcontracts negotiated between Boeing and a Product Group that is furnishing to Boeing one or more of the common items identified in Attachment J-11. The Product Groups will flow this clause to lower tier subcontracts to the extent practical and possible. This clause has no application to contracts between Product Groups and IP contractors entered into prior to the effective date of this contract.

Cost or Pricing Data
