ALAN Cabin Management System
End of support notice.

Due to the obsolescence of key hardware components and the need for technology advancement, Rockwell Collins will discontinue support and repair for the Aircraft Local Area Network (ALAN) family of cabin management components.

Effective July 1, 2008, the parts listed on this notice will no longer be supported by Rockwell Collins.

While there is no direct replacement for the ALAN cabin management system, the Rockwell Collins CMS-1 system does provide similar functionality. CMS-1 is built upon

Rockwell Collins highly successful line of cabin management products. It includes a complete package of customizable switch panels, controllers and distributors, with optional remote controls and interactive touch-screen graphical user interfaces. The system controls a variety of source equipment and functions, from moving maps to real-time information and entertainment sources to environmental systems.

Please contact your Rockwell Collins Regional Sales Manager to learn more about our CMS-1 system.
