

# Legacy Falcon Cabin Management System (FCMS-1) Discontinuance Notice

Ref. No. 2014-094M

Pub Date 06/2014

At Rockwell Collins, we appreciate your selection of our products for your Dassault Falcon Jet, and strive to provide you with the best quality parts and service. Occasionally, advancements in the technologies we offer our Falcon customers necessitate that we cease production and phase out the support of older solutions. This is the case with the Legacy Falcon Cabin Management System (FCMS-1).

Effective August 1, 2014, we will no longer be able to accept new orders for the Legacy FCMS-1.

Purchase orders must be received and acknowledged by July 31, 2014, with deliveries by January 30, 2015. Some products are available in limited quantities but will not be replenished – when the stock on these products is depleted, the item will no longer be available.

If you have purchased equipment for the Legacy FCMS-1 you can expect the same level of excellent Rockwell Collins product support through September 2022.

As a replacement for the Legacy FCMS-1, we recommend our Venue™ high-definition cabin management system, which is the basis for the Dassault Falcon Cabin HD+.

For more information on the products listed below, or for assistance in planning your cabin system requirements, please contact your Rockwell Collins Regional Sales Manager.
